# THE JOURNAL OF THE BRAZILIAN CRUSTACEAN SOCIETY

Summary Volume 20(1) – 2012  
Printed and Distributed in August 2012

<b>Preface</b>	i-ii
30 Years of The “Sociedade Brasileira De Carcinologia” (1982-2012)	
<b>Carolina F. Câmara, Maria Stela M. Castilho-Noll, Marlene S. Arcifa</b>	01-14
Predation on microcrustaceans in evidence: the role of chaoborid larvae and fish in two shallow and small Neotropical reservoirs	
<b>Claudia Laurenzano, Nahuel E. Farias, Christoph D. Schubart</b>	15-25
Mitochondrial genetic structure of two populations of <i>Uca uruguensis</i> fails to reveal an impact of the Rio de la Plata on gene flow	
<b>Célio Magalhães, Michael Türkay</b>	27-40
Taxonomy of the Neotropical freshwater crab family Trichodactylidae. VI. The genera <i>Avotrichodactylus</i> and <i>Rodriguezia</i> (Decapoda: Brachyura: Trichodactylidae)	
<b>Marina S.L.C. Araújo, José J.P.R. Lira</b>	41-50
Condition factor and carapace width versus wet weight relationship in the swimming crab <i>Callinectes danae</i> Smith 1869 (Decapoda: Portunidae) at the Santa Cruz Channel, Pernambuco State, Brazil	
<b>Douglas F.R. Alves, Samara P. Barros-Alves, Gustavo M. Teixeira, Valter J. Cobo</b>	51-62
Mithracinae (Decapoda: Brachyura) from the Brazilian coast: Review of the geographical distribution and comments on the biogeography of the group	
<b>Manuel Ayón-Parente, Michel E. Hendrickx, Eduardo Ríos-Jara</b>	63-73
Notes on two species of <i>Processa</i> (Decapoda: Processidae) from the Mexican Pacific	
<b>André Trevisan, Murilo Z. Marochi, Marcelo Costa, Sandro Santos, Setuko Masunari</b>	75-86
Sexual dimorphism of carapace and chelipeds of <i>Aegla marginata</i> (Decapoda: Anomura)	

Printed and Distributed in August 2012
